Disability Kiosk
by
CS225

What Will It Do for You?

- Keep track of all the people that come into the office.

- It safely keeps all the visitors information away from other people that use the kiosk.

- Allows users to pick there preferred specialist.

Features

- The program has a text to speech option for the visually impaired

- Has a report window that keeps track of all the visits by date and reason.

- Allows for adding and deleting Specialist.

- Allows for adding and deleting Admins.

The Way it's Used

- A visitor will come in and will out the form which will be loaded onto a Database

- It is running all the time.

- The only time you have to setup is the program is the first time it runs and it will remain on.

- If you want to get any of the information or add or delete a User simple press the Admin button.

Future Features

- A way to search by user name.

- A waiting section/Window.

- Speech to text.

And Enjoy

- Less paper work!

- Ease of use!

- And safety of information!
